

The Moynalvey GFC official website celebrates its 3rd birthday this weekend having commenced online at the end of August 2006.

With over 69,917 hits in its first 3 years, this represents an average of almost 64 hits a day. The single day with the biggest number of visitors was on 29th September 2008, the day after we won the Meath Junior Football Championship!!

Since the upgrade of the website in mid April of this year, a system has been set up where all visitors, hits, hit locations etc can be recorded. For those of you who are interested, a copy of the report is attached showing the 23 countries & a further breakdown of the cities from which people have logged onto our site since April 26th of this year.

Once again thanks to all who contribute information for the website and we hope it provides a useful and up to date service for all supporters of Moynalvey GFC both at home and abroad.
